

PUBLIC NOTICE

PERMIT APPLICATION: NRS 06.336

APPLICANT: Kevin Foster
ANR Pipeline Company
Two Brentwood Commons, Suite 190
750 Old Hickory Boulevard
Brentwood, TN 37027
615-221-1529

LOCATION: Wetlands along U.S. Highway 72 at the Shelby/Fayette County Line
Shelby/Fayette Lat.35.0111/Long.89.6450

WATERSHED DESCRIPTION: The palustrine emergent wetlands involved in this application were a former agricultural field and are dominated by an even mix of obligate and facultative wetland plants. Soils within the wetland are silty clay with a Munsell Color of 7.5YR7/2 in the upper 18 inches. The site is typical of west Tennessee depressional wetlands.

PROJECT DESCRIPTION: The applicant proposes to replace existing pipeline segments (1 segments each) from three parallel lines (501, 1-501 and 2-501) to meet required safety standards associated with a road widening project proposed by TDOT. The construction would involve temporary impacts to 0.80 acre of wetlands. All disturbed areas would be restored to original grade and contour and reseeded with a temporary matrix of annual ryegrass (40lbs/acre). Timber mats would be used outside of the excavation to prevent unnecessary rutting and erosion.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.

USGS TOPOGRAPHIC QUADRANGLE: Collierville, TN (416-SW)

PERMIT COORDINATOR: Brian Canada

No decision has been made whether to issue or deny this permit. The purpose of this notice is to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. Persons wishing to comment on the proposal are invited to submit written comments to the department. Written comments must be received within **thirty days of the date that this notice is posted**. Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the department hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reasons that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the department will hold a public hearing.

The permit application, supporting documentation including detailed plans and maps, and related comments are available at the department's address for review and/or copying. The department's address is:

Tennessee Department of Environment & Conservation
Division of Water Pollution Control, Natural Resources Section
7th Floor L & C Annex
401 Church Street
Nashville, TN 37243

In deciding whether to issue or deny a permit, the department will consider all comments on record and the requirements of applicable federal and state laws.
